

# THERMAL REMEDIATION RESIDENT CHECKLIST

The key to proper Thermal Remediation is proper preparation. The following checklist is provided to assist you in preparing for treatment. Following this checklist will assist in expediting the remediation process and dramatically improve your success levels.

- Ample parking and necessary permits have been pre-arranged and ready for technician arrival.
- Payment in full is available for technician at time of treatment.
- Residence is free of clutter and garbage has been properly sealed and removed.
- Doorways and rooms are accessible for heaters and fans.
- Two feet of clear access has been provided to all walls including closets.
- All electronics have been unplugged and powered down prior to treatment.
- Containers and boxes are loosely stacked and not overfilled to allow for proper air circulation.
- All pressurized cylinders, soda cans, paints, flammable chemicals, aerosols such as Lysol or hairspray, candles, soaps, deodorants, lipsticks, and gel air fresheners have been placed in the "safe zone" along with heirlooms or anything else of irreplaceable value.
- All guns, ammunition, and fireworks have been removed from the property.
- Medications and bottled alcohol or liquor has been placed in the refrigerator.
- Customer is leaving wearing their properly prepared clothing.

Treatment times will vary according to design and the amounts of personal content. Please plan on being out of your residence for a minimum of 8 hours. Your cooperation with the checklist above is imperative, appreciated, and will facilitate a successful treatment.
